

Swan Hill Regional Livestock Exchange

Prime Cattle Sale 13th September 2018

Challenging conditions has led to continued high cattle numbers coming across the weighbridge at the SHRLE. This week saw Agents yard over 2000 head in a predominately female market. This trend continues to mirror markets across the board, accounting for a decline in overall cattle average weights. Bidding from our regular buying group continues to remain consistent for well covered stock seeing supplementary fed prices rise by 5c/kg-10c/kg when compared to last fortnight's quotations. Trade prices reflected the quality yarded seeing prices gain 5c/kg-10c/kg across all Agents. Cow quotations saw the best gains this week with quotes up to 10c/kg-15c/kg dearer.

Quotations:
